THE EVENT THE ENTIRE CARE SECTOR IS TALKING ABOUT

Working Feedback

Bright Shadow

Omnicell

Care Protect

Myhomecare

Novus Environmental

"I was very happy with the quality of leads that we generated from the show, and within 2 working days we already had an order which covered the costs; and many more large opportunities which should give us an excellent return."

Dan Farrell-Wright, Technical Director, CareForIT

"Great footfall, a flow of high quality delegates and strong interest. On top of that it was professionally and efficiently organised. By day two we had booked for next year. This is the gorilla event for UK social care, no doubt about it."

Neil Eastwood, Sticky People

"Health+Care was an opportunity we couldn't turn down. Compared to other events, we have met a completely new market place with more decision makers than anywhere else. We'll be back to exhibit next year."

Rebecca Coldicott, Sales & Operations Director, Sensory Technology

"We've literally rushed off our feet. Our champagne reception drew a great crowd and our speaking sessions have been oversubscribed. We get to see lots of professionals across both the residential and domiciliary sectors, and what's great is that these are people coming out of their own free-will."

Marketing Controller, everyLIFE

"We have already received an email asking for a quote from a delegate we met yesterday & we have many meetings booked in the diary after the event. There is such a varied audience here which I think reflects the number of quality speakers you have here."

Shelley Stokes, Internal Account Manager, Eyeway Signs

"The conference has been brilliant, we have networked with a lot of people and got some really good leads. The delegates were definitely relevant for us; there are a lot of managers here who sought out the training for their homes. We would come again, although it is expensive it is worth it. We have lots to follow up after this."

Becky Gawtry, Business development officer, TheSkillsNetwork

"This has been much better than I thought, as a recruitment agency I wasn't expecting to get as much turn out as we have got. We have had a lot of client interest which I wasn't expecting when I first walked in. We have had so many directors visit us- and it's impossible to reach them. It has been brilliant."

Lana Gruitt, Team Leader- Health and Social Care Division, Skyex Resourcing

"We have got to meet many people we wouldn't normally meet in our usual settings. It was good to see the clients face-to-face, whom we try to source out every day and it's usually impossible to get them."

Irene Mutinda, Director, J24 Resourcing
